Profile

Design-oriented web technologist focused on a combination of UI/UX design & prototyping, front-end development, and making the web an overall more enjoyable place to be.

Experience

FRONT-END DESIGNER/DEVELOPER - CREATIVE CIRCLE - BOSTON, MA: 2013 TO PRESENT

Freelance front-end developer working with a variety of clients on a diverse range of web-based assignments, such as highly visual & interactive corporate sites, content managements systems, and web-based dashboard design/development.

DESIGNER/DEVELOPER - SELF-EMPLOYED: 2007 TO PRESENT

Consultant for a variety of small businesses, startups, artists and entrepreneurs in the Boston area providing web-based solutions such as front-end development, CMS & eCommerce integration, web-based dashboard design/development, branding, and more.

UI/UX DESIGNER/DEVELOPER - CLICKFUEL - BOSTON, MA: 2009 TO 2012

Worked as ClickFuel's UI/UX and front-end development lead with an international team of developers across a broad range of business initiatives, such as direct-to-client corporate sites, and the company's enterprise level SaaS based marketing dashboard hub.

COMMUNITY ASSOCIATE - COMMUNISPACE - BOSTON, MA: 2007 TO 2008

Managed numerous communities of hundreds of online users for several high-end, Fortune 500 clients such as CDW, Scotts, and Gartner with the goal of obtaining real-time market research results.

Skills

Clean, functional design, informed by a deep foundation in front-end development, back-end integration, and a commitment to maintaining a cutting edge skill set.
